Schivilly Schoo what shape will I do?

Fighting Words, Maths Specialism BOid3 students

2024 - 2025

All the shapes are really excited. It is a massive day for Shape Town. All the young 2D shapes are getting their new 3D shapes today.

CeeCee The Circle is very worried. She doesn't see herself growing up in the same way as her friends. She is afraid she is going to look very different.

Shelly The Square knows she will become a cube or a cuboid. She is happy with either.

Terry The Triangle, Cee Cee's best friend, is really excited to become a triangular prism, or a pyramid or a tetrahedron.

All the shapes will have a friend, for example Terry and Shelly could be a square based pyramid.

But there's a chance that CeeCee won't have a friend. If she becomes a sphere, she will roll away from everybody as she tries to talk to them!

All the shapes gather in the Town Hall. The sun is shining in the sky. The parents are lined up. Everybody is waiting on the Master ShapeShifter.

He rolls out of his car, and lands on his base as a cube. He stretches out into a cuboid and shimmies into the Town Hall. Coming through the door, he flips onto a corner transforms to a pyramid and pirouettes onto the stage to the ooohs and aaahs of the crowd.

"He's here, he's here!" shouts Shelly The Square.
"I'm squared what's going to happen.

Shelly The Square hops up the stairs towards the stage.

"Schivilly Schoo, what shape am I going to do?"

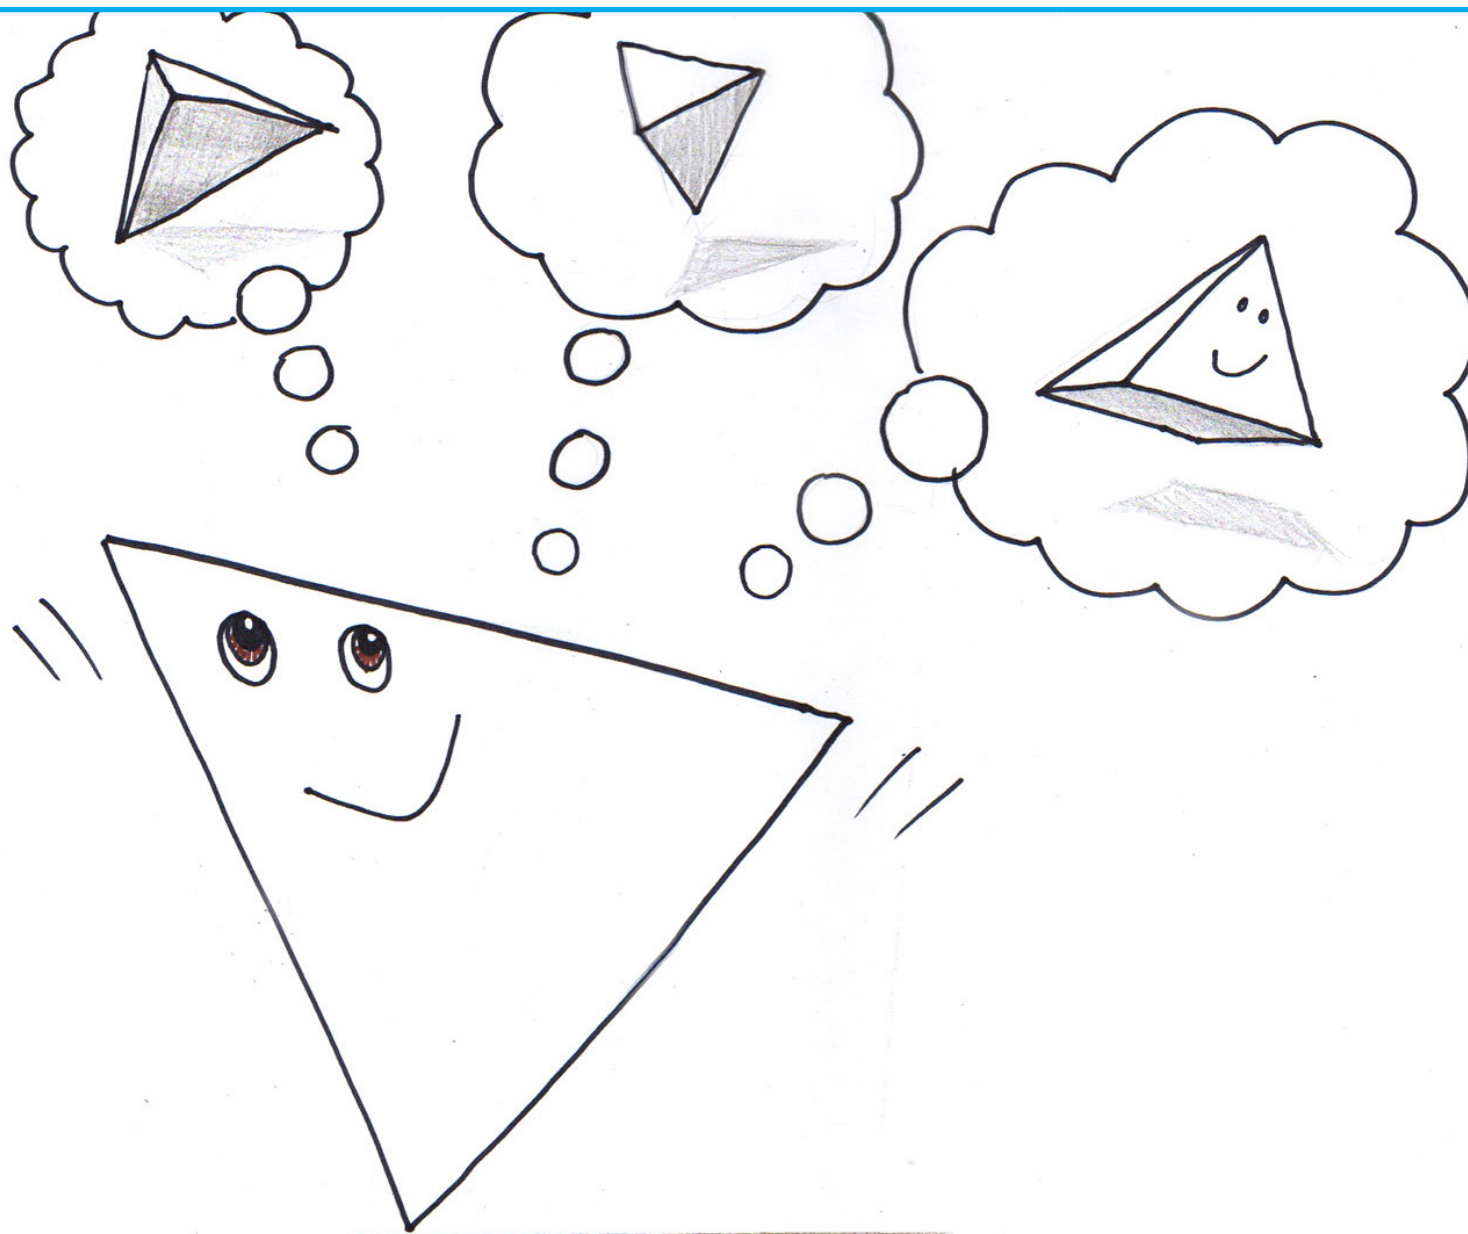

The Master ShapeShifter waves his wand. The crowd gasp. Shelly's face multiplies into a net of six squares and Pouff she becomes a cube.

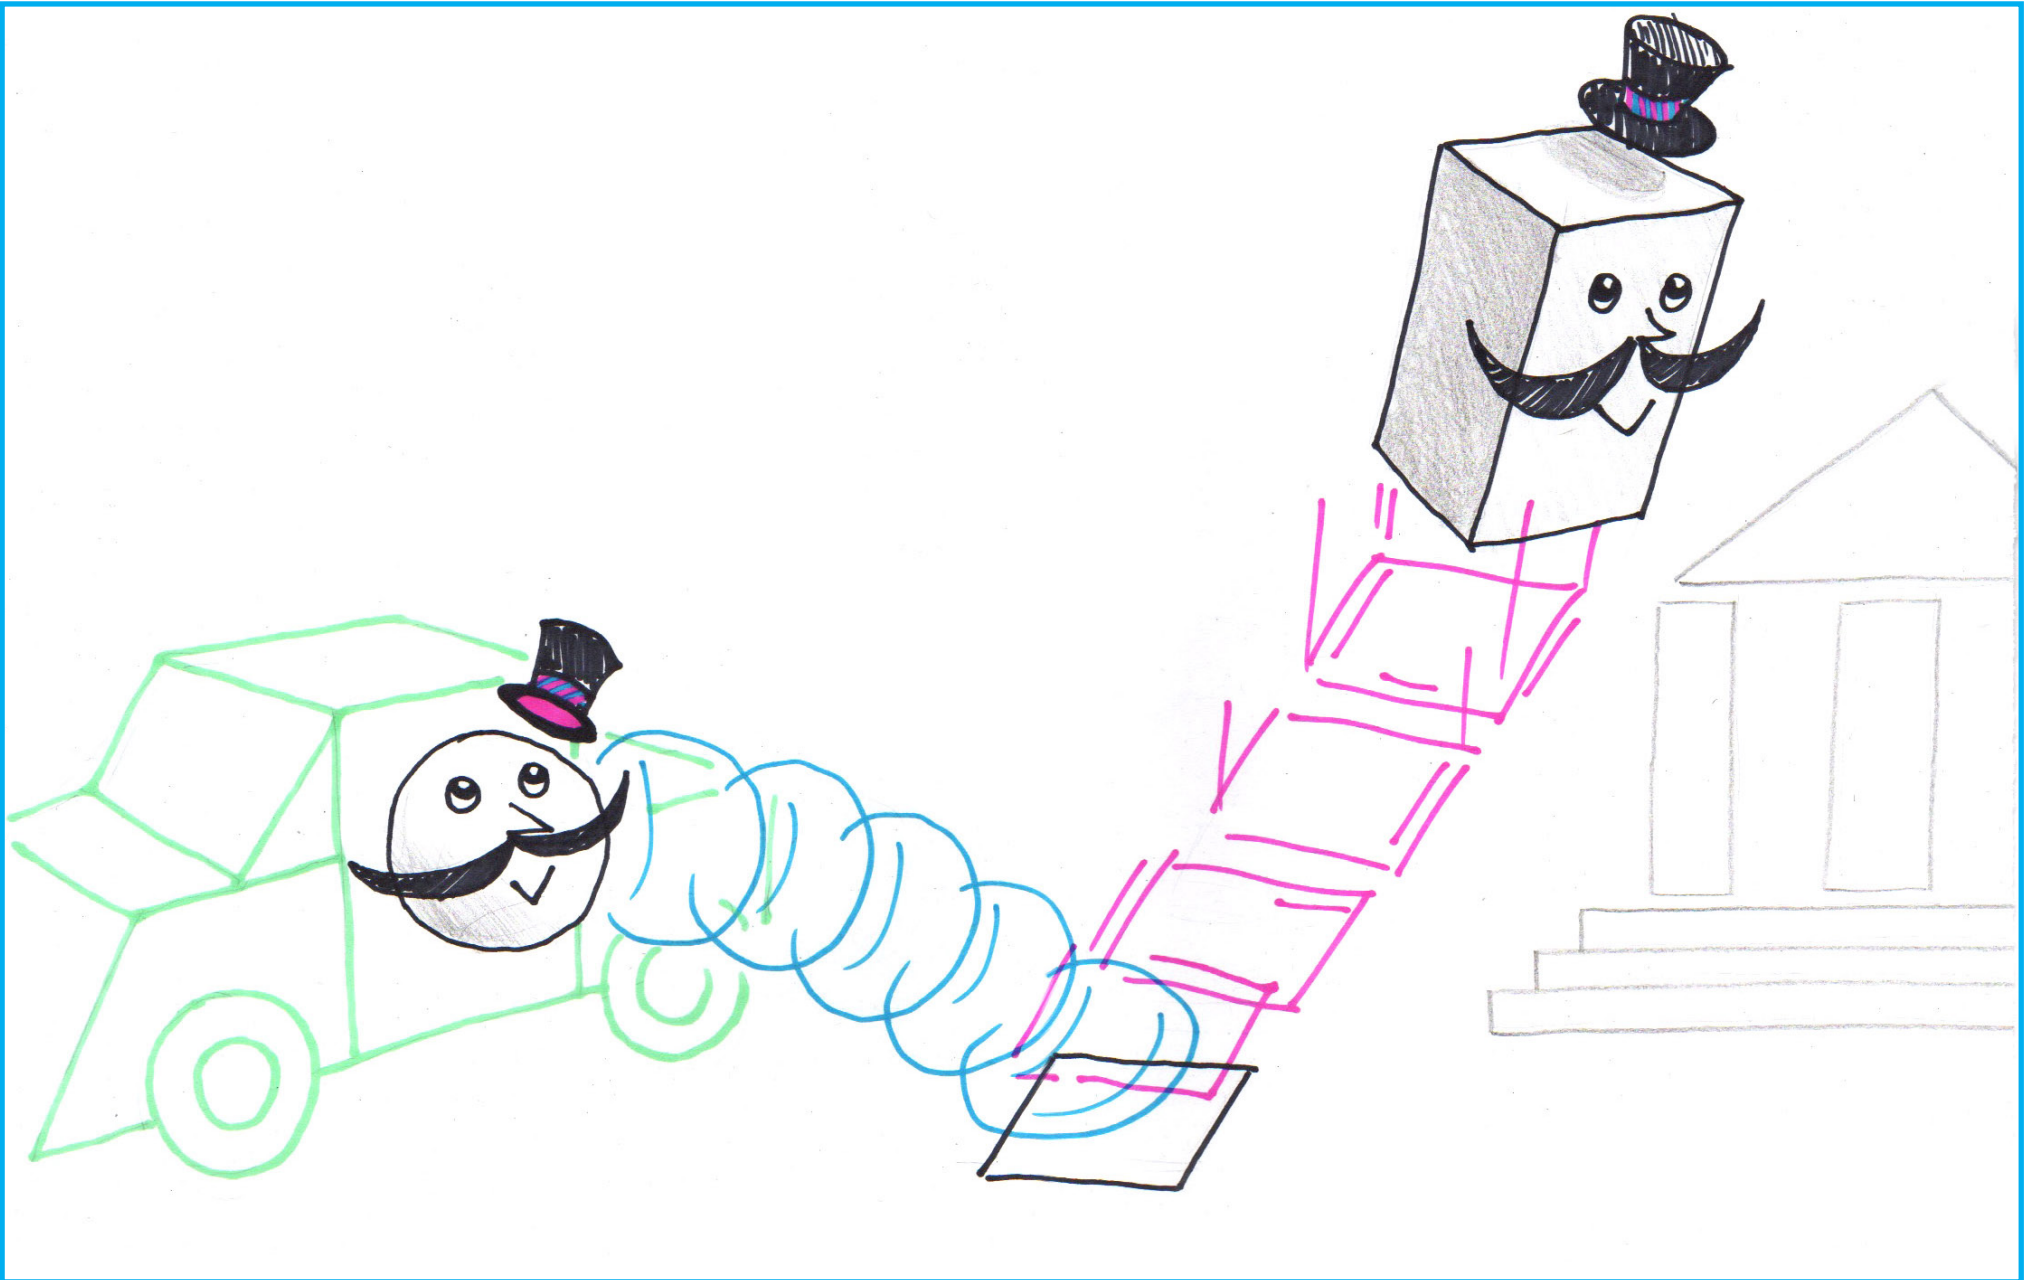

Now it's Terry's turn.
